

# Junior Scientist Leadership Team

## Looking for high school homeschoolers!

We are looking for high school homeschoolers to form a leadership team for our Jr. Scientist Program. Each leader would be in charge of 6 homeschoolers ages 8-12, under the direct supervision of the homeschool coordinator. You would meet once a month for an in-depth lesson on the program for that month, then again for the program to lead the participants of the Junior Scientist Program. We are looking for leaders that can commit to coming monthly.

## Jr. Scientist Projects

- September 28: World Water Quality Monitoring Day (A global event!)
- October 26: Prairie seed collection, prairie seeding, and prairie restoration
- November 30: Invasive species removal by making your own Buckthorn Hiking Staff (material fee will be charged for this month)
- December 14: Wood Lake mammal check-up
- January 25: Wood Duck monitoring and conservation
- February 15: Great Backyard Bird Count (A national event!)
- March 28: March Phenology survey
- April 25: Maple Syrup Party
- May 23: Project Noah Flowers of North America Citizen Science Project (A national project!)

Homeschool Coordinator Brandon Baker performing experiments with students about sounds.

## Benefits

- Gain valuable leadership experience which looks great on resumes and college applications
- Have fun gaining in-depth knowledge on scientific projects
- This will be an intellectually challenging program that will prepare you for scientific classes in college
- Meet other homeschoolers with similar interests
- Gain experience interviewing and writing a resume

We are looking for students who are outgoing, responsible, can follow directions, and are comfortable working with children. If you are interested and feel you meet these qualifications please call us at 612-861-9365 to set up an interview. If you qualify the cost is \$4 a month to join.

Wood Lake Nature Center is a 150 acre park run by the City of Richfield. We are located at 6710 Lake Shore Drive Richfield, MN. [www.woodlakenaturecenter.org](http://www.woodlakenaturecenter.org)
